# Company Profile

Providing construction service of infrastructure development like Buildings, Monasteries, Renovations as Refurbishment of Buildings, Seismic strengthening and Retrofitting and other infrastructure related works.

# The Company

Established in 2016 BS (1959 AD) by the late Mr. B.K. Shrestha, B.K. Shrestha & Builders Pvt. Ltd. is a trailblazer in Nepal's construction industry. Initially focused on government projects during an era when the construction sector lacked formal registration and categorization, the company officially registered as a Proprietorship Firm in 2030 BS (1973 AD). It was later restructured as a Private Limited Company in 2045 BS (1989 AD). By 2048 BS (1991 AD), it had earned an "A" category classification from the Ministry of Works & Transport, solidifying its status as a leader in the field.

## Key Areas of Expertise

The company specializes in a wide array of construction services, which include:

- Commercial complexes
- Hotels
- Hospitals
- Monasteries
- Renovation and retrofitting/seismic strengthening works
- Infrastructure development
- School buildings

## Commitment to Quality and Client Satisfaction

B.K. Shrestha & Builders Pvt. Ltd. is widely known for its unwavering commitment to quality, timely project delivery, and client satisfaction. The company prioritizes building long-term relationships by deeply understanding client needs and providing tailored solutions. Its efficient and reliable consultancy ensures that all projects are delivered within the stipulated time frame and budget, reflecting its dedication to excellence.

## Professional Team and Resources

The company is managed by a visionary Board of Directors and senior executives with extensive expertise in construction, engineering, administration, finance, and marketing. They are supported by a highly qualified team of engineers, administrators, and technical experts. The firm also owns an extensive fleet of advanced construction equipment, enabling it to efficiently execute complex and large-scale projects with precision and reliability.

## Expanding Portfolio and Notable Projects

B.K. Shrestha & Builders Pvt. Ltd. has an impressive portfolio that spans various sectors:

- Government buildings and embassies
- Projects for UN agencies and USAID
- Hotels, hospitals, and residential buildings

## Monastery Projects

The company has undertaken prestigious monastery projects that demonstrate its ability to execute intricate designs with exceptional craftsmanship. Notable examples include:

- Rigpe Dorje Foundation
- Amitabh Foundation Centre
- Ka-Nying Shedrup Ling Monastery

## Retrofitting and Seismic Strengthening Projects

B.K. Shrestha & Builders Pvt. Ltd. has established itself as a leader in retrofitting and seismic strengthening projects, having successfully collaborated with esteemed clients, including:

- British Gurkhas
- UNHCR
- British Embassy
- Handicap International

## Key Hospitality Projects

The company has played a significant role in the development of prominent hotels and resorts, including:

- Shangri-La Village Resort, Pokhara
- Mirabel Resort Hotel, Dhulikhel
- Kiran Boutique Resort, Pokhara
- Flip Nepal Resort, Pokhara

## Key Healthcare Projects

B.K. Shrestha & Builders Pvt. Ltd. has contributed to Nepal's healthcare infrastructure through projects such as:

- Mahakali Zonal Hospital, Mahendranagar
- Malaria Research Center, Hetauda
- B & B Hospital, Lalitpur

- Himal Hospital, Kathmandu
- Reproductive Centre Buildings at Rupandehi and Dang under UNICEF
- Health Centre Buildings at Janakpur, Sindhuli, Dolakha, Jaleshor, Dang under UNFPA

## Conclusion

With a legacy of over six decades of excellence, B.K. Shrestha & Builders Pvt. Ltd. continues to be a trusted name in Nepal's construction industry. Backed by an expert team, state-of-the-art resources, and a commitment to quality, the company consistently delivers high-quality solutions. Its proven ability to successfully complete challenging and diverse projects reinforces its reputation as an industry leader.

# HEALTH & SAFETY

It is our aim to achieve a working environment which is free of work-related accidents and ill-health and to this end we will pursue continuing improvements from year to year.

Our Health & Safety planning during the construction enables us to assess the following scopes:

- Identify hazards in the workplace, assessing the risks related to them and implementing appropriate preventing and protective measures.
- Providing and maintaining safe plant and work equipment.
- Establishing and enforcing safe methods of work.
- Recruiting, contracting and appointing personnel who have skills, abilities and competence commensurate with their role and level of responsibility.
- Ensuring that tasks given to employees are within their skills, knowledge and ability to perform.
- Ensuring that technical competence is maintained through the provision of inductive training as appropriate.
- Furnishing sufficient funds needed to meet these objectives.

All workers on their part are encouraged to contribute actively towards achieving at work environment, which is free of accidents and ill.

BK Shrestha & Builders (BKSB) has committed the necessary resources of staff, money, and time to ensure that all persons on the worksite are protected from injury and L hazards. BKSB will continue to review its safety and health policy to ensure that all employees know, understand, and support that policy.

Everyone shall ensure that all visitors to the site, including contract and temporary laborers, heavy equipment operators, heavy drivers and sub- contractors, have knowledge of site hazards applicable to them and how to protect themselves against those hazards, including emergency alarms and procedures.

## **Safety First Priority**

---

Safety and health shall be the top priority for every employee while performing any operation or activity. It is the intent of BKSB to comply with all laws concerning the operation of the business and the health and safety of our employees and the public. No one should ever perform an activity that is known to be unsafe or dangerous to BK Shrestha & Builders Pvt. Ltd. their health. Everyone shall be proactive in detecting hazards, reporting dangerous conditions and controlling workplace hazards.

The safety of all our employees is the first and foremost objective of BKSB. Prevention of occupational injuries and illnesses must be given precedence over any other objective. BKSB will provide all items and support all activities required to ensure the health and safety of everyone working or visiting BKSB facilities or any other site being managed by us.

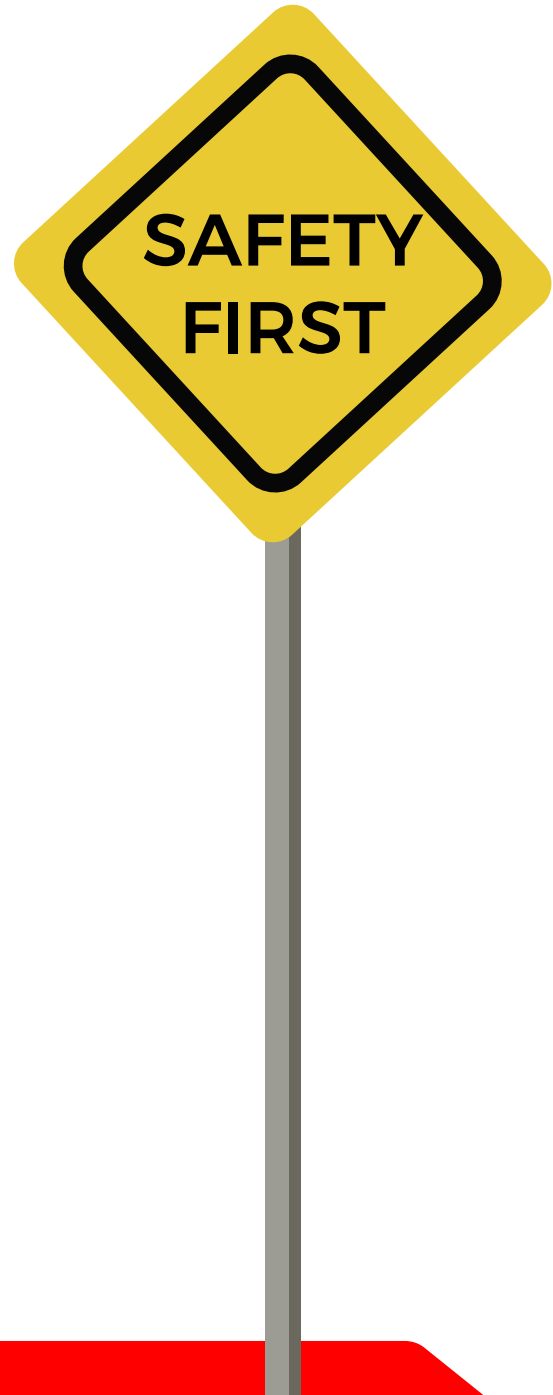

# Individual

## Cooperation Necessary

---

Working as partners with each individual employee, BKSB commits to achieving measurable, meaningful improvements in worker safety and health through the following blueprint:

- 🔊 Through cooperation and respect, build an open and continuous communication channel amongst BKSB, subcontractors and each individual employee.
- 🔊 Actively research, share and implement the best applicable safety and health programs available, which include technology, innovations and best practices that provide measurable improvement in worker safety and health.
- 🔊 Continuously develop, build and share effective safety and health programs.
- 🔊 With the help of individuals involved in specific activities, develop and build improved, effective, meaningful safety and health training programs specific enough for the trade, yet broad enough to be effective in every facet of the organization.
- 🔊 Continue to recognize and promote worker safety and health excellence.

# Quality Assurance

## Our Approach to Quality Assurance

---

BKSB has qualified and experienced personnel that can plan and perform the systematic steps necessary for quality assurance during our construction process. Our team ensures that the quality of the project is to be built in the most efficient, economical, and satisfactory manner possible. We perform continued evaluation of the activities of planning, design, construction and maintenance, and the interactions of these activities.

We believe that quality control is the full responsibility of the contractor, while quality assurance also includes acceptance. Acceptance involves sampling, testing, and the assessment of test results to determine whether or not the quality of construction is acceptable in terms of the specifications.

We understand that construction planning is a complex process that must be kept current with the actual construction taking place in the field. Failure to keep the construction planning dynamic and up-to-date can create confusion and delays. BKSAB guarantees that the actual construction activities are closely monitored to ensure that the engineering plans and specifications are being met or exceeded throughout the construction process.

Our company has experienced quality assurance personnel that has developed highquality finished projects that has successfully met the needs and requirements of the British Embassy.

No compromise will be taken in terms of quality of each material to be used in construction work. Prior to construction, the testing of materials and their results all are reviewed by our design team and the information is communicated to the Project Manager of the site. Our design team is very knowledgeable and makes sure that that only high quality materials are used during construction.

## Quality Assurance Statement

---

BK Shrestha & Builders Pvt. Ltd. is committed to provide quality constructions and infrastructure related services to its valuable customers and stakeholders fulfilling all the statutory and regulatory requirements reviewing the quality objectives and always endeavouring to the continual improvement in its system to increase customer satisfaction. BK Shrestha & Builders Pvt. Ltd' s quality assurance policy is based on principles and values provided for in the Company Mission, strategy and goals.

We pursue the following goals in the field of quality assurance:

Strict compliance of our services with international, national, and corporate standards and requirements.

Professional and technical level of the services must correspond to or exceed that of the leading enterprises and companies operating in Nepal.

Responsibility to owner/client for the quality of the services rendered.

Cost efficiency of the services as compared with other companies operating in the market.

Development and implementation of new services that fully satisfy our customers' needs.

Continuous monitoring of complaints and claims from owner/client, and aim to maintain these at zero.

Positioning of the company as employing professional staff educated to the right level for the job, and providing services of high quality.

# ENVIRONMENTAL POLICY

BK Shrestha & Builders P. Ltd. believes that economic growth and the well-being of society are inextricably tied to the health of the environment. Accordingly, we embrace our responsibility for environmental practices and sustainability principles into our core business strategy. Through collaboration with our suppliers and business partners, we actively work to reduce the environmental impact of our business activities and to continually improve and innovate on practices aimed at:

1

Integrating the consideration of environmental concerns and impacts into all of our decision making and activities,

2

Promoting environmental awareness among our employees and encouraging them to work in an environmentally responsible manner,

3

Training, educating and informing our employees about environmental issues that may affect their work,

4

Minimizing waste through re-use and recycling and by purchasing recycled, recyclable or re-furnished products and materials where these alternatives are available, economical and suitable,

5

Promoting efficient use of materials and resources throughout our facility including water, electricity, raw materials and other resources, particularly those that are non-renewable,

6

Avoiding unnecessary use of hazardous materials and products, seeking substitutions when feasible, and taking all reasonable steps to protect human health and the environment when such materials must be used, stored and disposed of,

7

Purchasing and using environmentally responsible products accordingly,

8

Taking action to minimize noise levels, traffic nuisance, emission of pollutants and disturbance to the public and local ecosystem,

9

Where required by legislation or where significant health, safety or environmental hazards exist, developing and maintaining appropriate emergency and spill response programs,

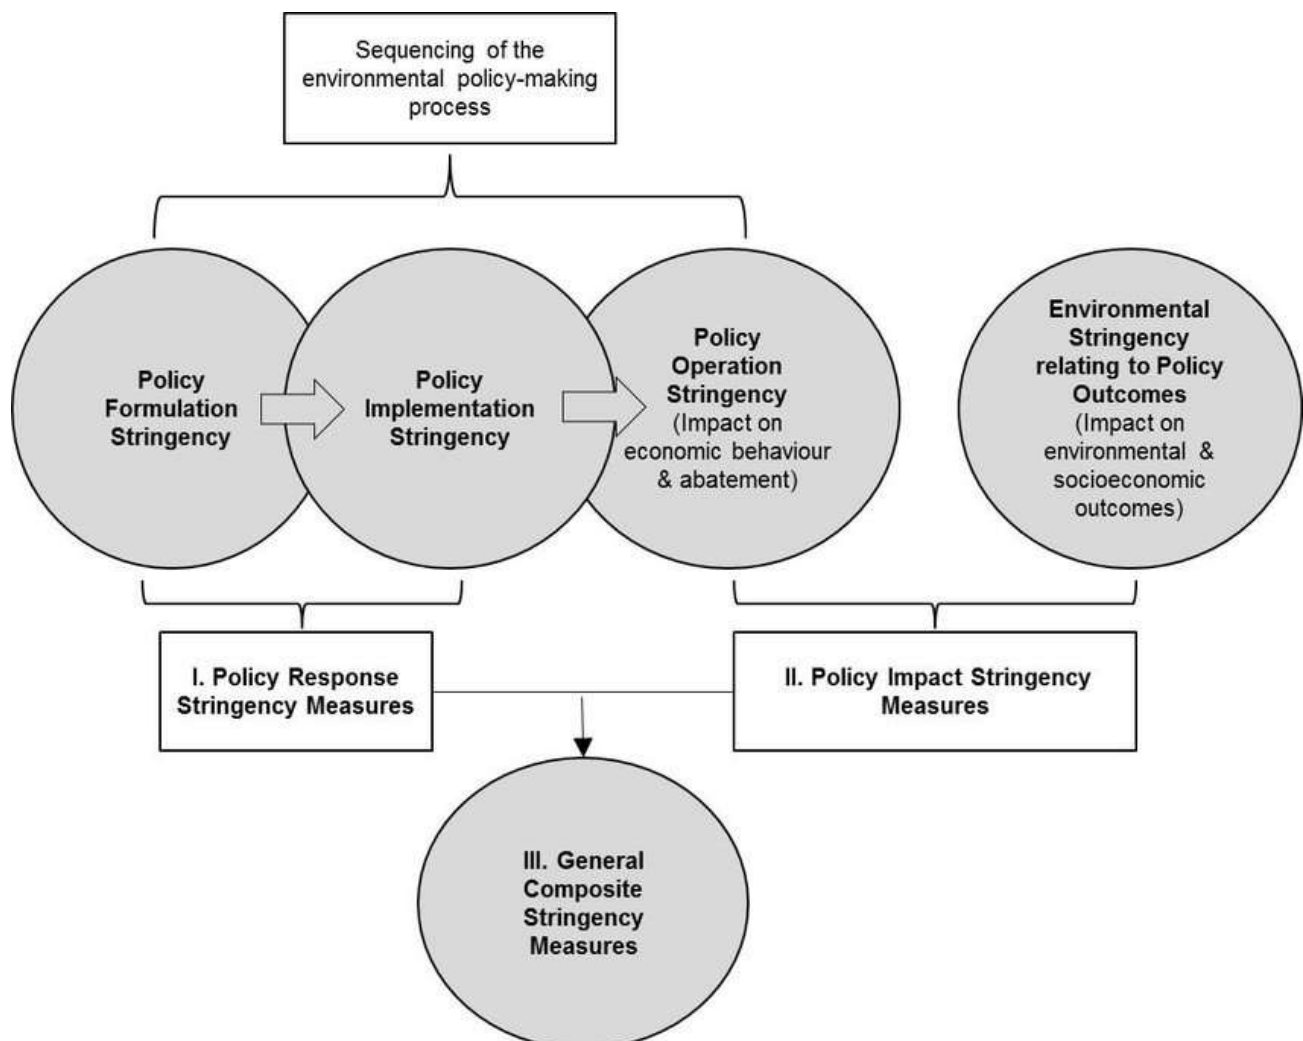

10

Communicating our environmental commitment to clients, customers and the public and encouraging them to support it,

11

Striving to continually improve our environmental performance and minimizing the social impact and damage of activities by periodically reviewing our environmental policy in light of our current and planned future activities.

We strongly believe that our efforts to support a healthy environment serve the interests of both current and future generations and constitute the foundation for enduring success.

# MACHINES & EQUIPMENT

In construction projects where the magnitude of the work is on a large scale, speedy work and timely completion of the project with quality control is very important for BK Shrestha and Builders. In order to achieve this, mechanization of work has to be done, where construction machinery & equipment play a pivotal role. The need for mechanization arises due to the following reasons:

- Magnitude and complexity of the project.
- Projects involving large quantities of material handling.
- Complexity of projects using high grade materials.
- High quality standards.
- Importance of keeping with the time schedules.
- Optimum use of Material, Manpower and Finance.
- BKSB understands the importance of proper use of appropriate equipment and how it contributes to Economy, Quality, Safety, Speed and Timely completion of the Project.

## Equipment Selection

---

One of the most important tasks in the pre-construction planning process is equipment selection. There are many variables to consider when selecting equipment. BKSB considers the following factors at the time of selecting construction equipment:

- 1 BKSB uses equipment's that maintain high quality standards often required by present-day design and specifications.
- 2 We ensure that the equipment we use maintains the planned rate of production where there is shortage of skilled or unskilled labor.
- 3 BKSB ensures that the equipment will help in increasing the rate of output through work progress with the best effective and efficient methods.
- 4 We make sure that the equipment's we use reduces the overall construction costs especially for large contracts for our clients.
- 5 Tasks which are too heavy or too delicate for human muscles to do can be done easily by our machine or equipment.
- 6 We use machineries that carry out activities which cannot be done manually or to do them more economically and much faster.
- 7 BKSB uses equipment's that performs multiple tasks:
- 8 We try our best to use machineries that ensures environmental friendliness.

**TO WHOM IT MAY CONCERN**

This is to certify that Mr. Mukunda Shrestha is a Director of M/S BK Shrestha & Builders P. Ltd., Lagan, Ganabahal, Kathmandu, and they have been regularly undertaking various construction works at Pokhara and Kathmandu, for this organisation during the last few years. At present they are undertaking seismic strengthening works on the buildings Saurav Sadan, Minu Rana, Sheela Niwas, Rudramaya Flats & Kakani Bungalow Phase I works. Details of Works completed by them since Dec 2005 to Oct 2006.

| Year                 | Amount            |
|----------------------|-------------------|
| Dec 2005 to Oct 2006 | Rs. 14,002,296.03 |

Working with M/s BK Shrestha & Builders P. Ltd and its employees was pleasant and rewarding experience given their co-operative attitude and behaviour to all the works undertaken. They were able to effectively manage work on site by appointing competent and able personnel. BK Shrestha and Builders P. Ltd continually strived to meet the high standard demanded by DEOD (N). The quality of materials and workmanship always remained consistently high throughout the period of construction.

I have no hesitation in recommending this company for building construction work and wish them all the success in their future endeavours. Some of the works undertaken by them for British Gurkhas Nepal are tabulated below.

| Nature of Works                                                               | Total Cost       |
|-------------------------------------------------------------------------------|------------------|
| 1. Seismic Strengthening Works of Shree Niwas Hiring at Manbhawan, Lalitpur   | Rs. 827,216.50   |
| 2. Construction of Store at BGK                                               | Rs. 83,894.59    |
| 3. Seismic Strengthening Works of Madhu Niwas Hiring at Manbhawan, Lalitpur   | Rs. 1,280,420.52 |
| 4. Improvement Works a BGI, Itahari                                           | Rs. 566,667.88   |
| 5. Seismic Strengthening Works of Bijen Niwas Hiring at Manbhawan, Lalitpur   | Rs. 688,313.22   |
| 6. Construction of Covered Shed at DEOD (N), Pokhara                          | Rs. 276,324.55   |

**TO WHOM IT MAY CONCERN**

This is to certify that Mr. Mukund Shrestha is a Director of M/S BK Shrestha & Builders P. Ltd., Legen, Ganabahal, Kathmandu, and they have been regularly undertaking various construction works at Pokhara and Kathmandu for this organization since last few years. They have completed various construction works amounting to NRs. 9,276,700.89 between November 2006 to March 2007, which is listed below.

Working with M/s BK Shrestha & Builders P. Ltd. and its employees was pleasant and rewarding experience given their co-operative attitude competent and able personnel. BK Shrestha & Builders P. Ltd. Continually strived to meet the high standards demanded by DEOD (N). The quality of materials and workmanship always remained consistently high throughout the period of construction.

I have no hesitation in recommending this company for building construction work and wish them all the success in their future endeavors. Some of the works undertaken by them during above mentioned period for British Gurkhas Nepal are tabulated below:

| List of Works Completed (November 2006 – March 2007)                                           | Cost NRs                |
|------------------------------------------------------------------------------------------------|-------------------------|
| 1. Seismic Strengthening Works to Minu Rana Hing at Manbhawan, Lalitpur (Including Variations) | Rs. 2,846,320.88        |
| 2. Seismic Strengthening Works to Rudramaya Flat at Manbhawan, Lalitpur (Including Variations) | Rs. 2,452,867.28        |
| 3. Seismic Strengthening Works to Saurav Sadan at Manbhawan, Lalitpur (Including Variations)   | Rs. 1,458,693.55        |
| 4. Seismic Strengthening Works to Sheela Niwas at Manbhawan, Lalitpur (Including Variations)   | Rs. 1,167,597.29        |
| 5. External Works at Kakani bungalow (Phase I)                                                 | Rs. 152,458.57          |
| 6. Metal Decking & Access Stair to Braithwaite GRD Tank at BGP                                 | Rs. 95,565.80           |
| 7. Seismic Strengthening Works to Sashi Bhawan at Manbhawan, Lalitpur                          | Rs. 750,301.92          |
| 8. Gymnasium Improvement Works at BGK                                                          | Rs. 47,896.60           |
| 9. Changing Rooms at Gymnasium BGK                                                             | Rs. 235,000.00          |
| 10. Pump house Shed at Kalikhola, BGP                                                          | Rs. 50,000.00           |
| <b>Total:</b>                                                                                  | <b>Rs. 9,276,700.89</b> |
